3. SOLE SOURCE DETERMINATION

Jan. 13, 2019

New Mexico County Insurance Authority
Chairman Ron Lethgo and Chairman Lance Pyle
444 Galisteo St.
Santa Fe, NM 87501

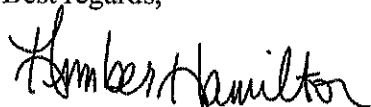

Dear Chairman Lethgo and Chairman Pyle,

Thank you for your patience during this review process. I have studied the scope of work provided by Mr. Decker, thoroughly reviewed the requested documentation, researched the services sought and market capabilities, reviewed statutes, and also reviewed comparative organizations prior to submitting this written determination as the appointed certified procurement officer for NMCIA.

My final determination, again based upon the provided scope of work and above mentioned research, is NMCIA may award a sole source contract procurement to New Mexico Counties. As NMCIA is not a recognized public entity by the General Services Department, I utilized GSD's Sole Source Form as a guide only. If the pool board choose to accept this determination, the sole source award should be publicized. I would also encourage you to communicate a sole source award with each pool member county as they too may choose to publicize this sole source award on their websites.

Again, thank you for this opportunity to serve NMCIA and member counties. Please let me know if you have any questions or need anything further.

Best regards,

Amber Hamilton, CPO

4. UNIQUENESS

New Mexico Counties Insurance Authority is governed by an elected board of directors and pool membership consisting of one designee by each member county. Through the existing joint powers agreement with New Mexico Counties, additional general administrative services to include risk management, risk management software access, extensive training programs and certifications unique to counties, legal services, accreditation programs, and comprehensive financial services are provided for the self-insurance pool memberships and all member counties.

New Mexico Counties administers three self-insurance pools that provide coverage for member counties. NMC formerly known as the New Mexico Association of Counties collaborated with counties in New Mexico and founded the Workers' Compensation Fund in 1987 and the Multi-Line Pool in 1989. The pools were formed to provide affordable coverage for counties when it was difficult and sometimes impossible for counties to obtain commercial insurance. The Law Enforcement Pool was formed in 1995 to provide liability coverage for Sheriff's Offices and detention centers when State Risk Management decided to no longer provide coverage.

Note Appendix A.

5. DUE DILIGENCE

Explain why this vendor is the only available source from which to obtain this product or service.

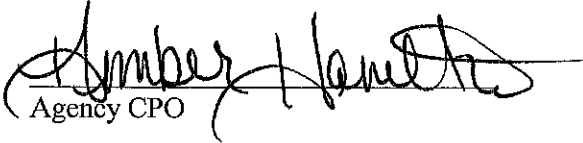

The company has affirmed (memo from vendor is attached) that there is no other source for this item.

Search for possible vendors proved futile.

As per the above noted sole source determination, NMCIA documents to include bylaws, JPAs, along with policies and procedures have been thoroughly reviewed. Research additionally included analysis of the services sought and market capabilities, statutes authorized insurance pools, review of comparative organizations and insurance pools, and consultation with other procurement professionals throughout the course of this process.

APPROVALS:

Based on the above stated facts, the New Mexico County Insurance Authority's (NMCIA) Certified Procurement Officer (CPO), Amber Hamilton has made the determination the justification for the Sole Source procurement referenced above is in accordance with §13-1-126 and will be posted for a 30-day period prior to award.

APPENDIX A
History of New Mexico County Insurance Authority (NM CIA),
Including its long history with New Mexico Counties (NMC).

NMC started as a loose association when several New Mexico counties began meeting on an annual basis in 1936 to address shared concerns and collaborate. The result of their collective foresight was the creation of and what is now the New Mexico Association of Counties (doing business as New Mexico Counties (NMC)), which was incorporated as a 501(C)6 in 1968; and, has served as a statewide voice for all counties in New Mexico ever since (whether or not they join NMC). All State of New Mexico counties are eligible for membership in NMC with the payment of annual dues. Membership entitles all elected county officials and career employees to the services provided by NMC as well as participation in a semi-annual conferences and specialty workshops.

In the mid-1980's the State of New Mexico made changes to the Workers Compensation Act, which along with a hard insurance market resulted in the formation of a self-insurance pool for this method of insurance coverage. The "New Mexico County Workers' Compensation Fund" (Workers Compensation Pool) Joint Powers Agreement (JPA) was formed in 1986 under the guidance of and with NMC as the entity providing services for the JPA Board; with operations beginning on July 1, 1987 with 22 original member counties signing the JPA, establishing the Workers Compensation Pool Board.

The hard insurance market for public liability continued through the 1980's resulting in the formation of The "New Mexico County Multi-Line Pool" (Multi-Line Pool) JPA for this method of insurance coverage. This Multi-Line Pool was formed in 1989 under the guidance of and with NMC as the entity providing services to the Multi-Line Pool Board. The Multi-Line Pool is the method of providing comprehensive coverage for property, crime, and liability (general liability, public official's errors and omissions, employee benefits, and automobile). This Multi-Line Pool began operations on January 1, 1989.

For both JPA organizations providing a method of pooling for insurance coverage, NMC provided all services needed by the Boards in fulfilling the purposes of the Pooling Statutes and the JPA's. In the beginning, the Pools through NMC retained Third Party Administrators, primarily dealing with claims, which provided the necessary services for the Pool Boards purposes. The services provided by NMC have increased over the years to now include not only claims handling but risk management, loss prevention, trainings, and a legal advice and legal bureau program with in house attorneys.

Prior to 1995, all Law Enforcement activity was insured by the State of New Mexico Risk Management Division. By 1995, the State informed all Counties that they would no longer be covered and that each should obtain their own insurance coverage. This period of time was an extremely hard market for law enforcement coverage. NMC facilitated and guided the establishment of the Law Enforcement Pool as a method for providing this insurance coverage; and, was governed by the Multi-Line Pool Board within the existing JPA. The Law Enforcement Pool began on August 1, 1995 providing coverage to counties for law enforcement activities.

Sometime in the late 1990's the two Boards of the three Pools, were dissatisfied with using Third Party Administrators. The Boards wanted to be able to provide more efficient and more responsive services to their member counties; and, provide more risk management services to reduce costs and liability. The two Pool Boards requested NMC to bring all services "In-House" with oversight and policy direction by the Pool Boards. This was when the Workers Compensation Pool and the Multi-Line and Law Enforcement Pools started doing business as NMCIA. At this time, NMC as an organization was capable of providing for and hiring needed employees so the two Pool Boards and NMC could cease using a third party administrator for claims; effectively creating and employing the "In-House" staff necessary for carrying out the purposes of the JPA Boards. All the employees doing business on behalf of NMCIA (JPA) are employees of the New Mexico Counties. The NMCIA (JPA) has no employees and owns no property. The Board of Directors is made up of Member Counties to the JPA. NMC administers the three self-insurance pools that provide this method of coverage for member counties or other local public bodies choosing to obtain insurance by self-insured pooling method. The oversight of the administration and operation is under the direction and policies of the JPA Board of Directors.

In June of 2019 the Members of each JPA, made the decision to re-organize into a single JPA. Beginning Jan. 1, 2020, with the approval of the New Mexico Department of Finance and Administration, NMCIA is governed by a 13 member Board of Directors for the combined pools.
