## A Conversation about Substance Use & Stigma

### Community Conversations

This is not an academic workshop about stigma. It is a conversation for participants to explore stigma, how we support people with substance use disorder (SUD) and their families, and how we work together in our communities to reduce stigma. We use portraits and videos of people with lived experience to facilitate discussion, making it very interactive.

### Train-the-Trainer

Learn to facilitate a Community Conversation on stigma! This event is designed for those who have attended a Community Conversation and wish to lead ongoing discussions. Participants will receive regular support through a national facilitator's call with the University of Rochester.

**\*You need to attend one of the Community Conversation sessions to participate in Train-the-Trainer.**

This HRSA RCORP RCOE program is supported by the Health Resources & Services Administration (HRSA) of the US Department of Health & Human Services (HHS) as part of an award of \$3.33M in the current year with 0% financed with nongovernmental sources.
